

St. Luke's Center for Neuroscience

St. Luke's Spine Center

610-954-6000

Upon referral to St. Luke's Spine Center, a comprehensive team of clinical professionals from various disciplines will evaluate your patient through a formal triage process and outline the most appropriate approach to treatment.

Referral Protocols

To get your back and neck pain patients to the appropriate specialist as quickly as possible, refer them to the St. Luke's Spine Center at 610-954-6000.

Intake Center

Based on clinical pathways developed by the neuroscience clinical team, the St. Luke's Spine Center will appoint neck and back pain patients to the appropriate modality for conservative treatments such as physiatry, pain management, rehabilitation and neurological care or refer to neurosurgeons and orthopaedic surgeons for surgical intervention.
