

# St. Luke's Occumed Resources

## Work-Site Services

St. Luke's Occumed Resources provides flexible, fee-based, on-site health and safety programs custom-designed to accommodate the individual needs of your company.

For small to medium size companies, St. Luke's Occumed Resources on-site programs bridge the gap between a company's need for health and safety services and the budget constraints of employing a full- or part-time health and safety staff.

For larger companies with in-house occupational health departments, St. Luke's Occumed Resources on-site programs provide a wealth of cost-effective options.

**Work-site programs, based on volume and feasibility include, but are not limited to, the following:**

- On-Site Nursing
- On-Site Physician
- Injury Prevention, Safety and Ergonomic Programs
- OSHA Compliance Testing/Programs
- Post-Offer Health Testing
- Health Screening Programs
- Controlled Substance Testing/Surveillance
- DOT/NON-DOT Compliant Programs
- Rehabilitation Programs
- Immunizations
